Professional Summary

Frontend Developer with **2+ years of professional experience** building high-performance, scalable web applications and interactive learning platforms. Specialized in **React, Vite, Tailwind CSS, WebAR/WebVR, gamified learning systems, and AI-assisted features**. Experienced in delivering child-friendly EdTech products adopted by **NCERT MOU-aligned initiatives as well as multiple private schools and institutions**. Strong focus on clean UI, performance optimization, accessibility, and seamless user experience.

Education

Bachelor of Engineering - Computer Engineering — **Jul 2019 - Jul 2023**

Vasantdada Patil Pratishthan's College of Engineering & Visual Arts, Mumbai

Employment

Jr. UI Developer — **Jan 2025 - Present**

i-Life Learn, Remote

- Owned frontend implementation for **LoveToRead, iLife Learn, Eduzon.ai, IgniteGenZ and iLife Ace-It** using **React (Vite) and Tailwind CSS**.
- Implemented **WebAR (markerless), WebVR, and AR Sheets (scan-based)** for 3D models, animations, and multilingual audio in camera view.
- Built **2D digital coloring sheets** and **3D interactive sheets** with real-time camera visualization and animations.
- Integrated **AI modules (Read Aloud AI, speech verification)** and interactive learning flows.
- Optimized performance, animations (AOS), and ensured cross-device & cross-browser compatibility.
- Collaborated with backend teams for **API, Firebase, and real-time data integration**.
- Maintained UI consistency and quality across **LoveToRead, iLife Learn, and iLife Ace-It**, all of which are **NCERT MOU-signed products and also adopted by multiple private schools**.

Jr. Web Developer — **Mar 2023 - Apr 2024**

THEA Trends LLP, Mumbai Suburban

- Spearheaded the frontend implementation of the **THEA Shoes e-commerce platform**, focused on women's footwear.
- Implemented responsive user interfaces using **React.js, HTML, CSS, JavaScript**, and integrated with **Node.js + MongoDB** backend services.
- Delivered a mobile-first, user-friendly shopping experience and optimized performance for production deployment.

Internship

CodeWind Technologies — **Jun 2022 - Jul 2022**

- Project: **Bird Species Identification using CNN (Python, ML)**

JavaScript - JS

UI / UX (Figma)

Languages

English

Hindi

Marwari

Marathi

Hobbies

- Travel
- Technology or Coding Projects
- Cooking or Baking
- DIY Projects
- Hiking or Outdoor Activities

Projects

i-Life Learn Website & Learning Platform

- Owned end-to-end frontend implementation of the **i-Life Learn website and web application** using **React (Vite) and Tailwind CSS**.
- Implemented **WebAR (markerless), WebVR, and AR Sheet (physical scan)** modules enabling 3D visualization, animations, and camera-based interaction.
- Engineered **2D digital coloring sheets** and **3D model coloring sheets** with real-time camera view and interactive animations.
- Integrated **multilingual audio playback**, scroll-based animations (AOS), and interactive learning elements.
- Ensured **cross-browser compatibility, performance optimization, and accessibility compliance**.

Love To Read WebApp

- Implemented child-friendly UI and interactive learning flows using **React (Vite) + Tailwind CSS**.
- Built **Read Aloud AI** for speech-based word verification with real-time feedback.
- Implemented **LSRW modules** (Listening, Speaking, Reading, Writing) aligned with learning objectives.
- Developed **dashboard analytics** for students and teachers, including progress tracking.
- Created **5+ educational games** including Balloon Pop ABC, Find the Sound, Sound it Out, Rhyming Rainbows, and Letter Maze.

Eduzon.ai

- Implemented complete frontend UI and responsiveness using **React (Vite) + Tailwind CSS**.
- Built a **feature-rich in-browser IDE** supporting C, C++, Java, Python, JavaScript, HTML/CSS, and full web stack projects.
- Implemented **AI-powered practice mode** for hints and guided learning.
- Developed a **coding assignment generation system** with problem statements, sample test cases, and hidden test cases.
- Built **secure test mode** and an **interactive storybook module** with narration and progress tracking.

Ignite GenZ

- Owned UI implementation for a youth-focused, gamified learning platform using **React (Vite) + Tailwind CSS**, delivering a modern and engaging experience.
- Integrated **Firebase authentication, real-time data fetching, and content management** for secure and dynamic updates.
- Implemented interactive challenges, gamified learning flows, and skill-building modules aligned with Gen Z learning behavior.
- Built reusable components, optimized load times, and ensured accessibility, responsiveness, and cross-browser compatibility.

i-Life AceIt

- Implemented the frontend layer for a **gamified e-learning platform** using **React.js, Vite, and Tailwind CSS**.
- Integrated **Firebase authentication and real-time database** for secure data handling.
- Built responsive, high-performance interfaces to support interactive learning experiences.

- Optimized UI components and state management to improve engagement and usability.
- Collaborated with cross-functional teams to refine user flows and product experience.

THEA Shoes

- Spearheaded the frontend implementation of the **THEA Shoes e-commerce platform**, a premium women's footwear brand, delivering a clean and conversion-focused UI.
- Implemented responsive, mobile-first interfaces using **React.js, HTML, CSS, and JavaScript** to ensure seamless shopping experience across devices.
- Integrated frontend with **Node.js + MongoDB** backend services for product listing, user flows, and data handling.
- Optimized performance, page load times, and UI interactions to improve usability and customer engagement.
- Collaborated with design and business stakeholders to align UI with brand identity and user expectations.

Additional Projects

- **Smart Attendance & Management System** – Face recognition-based attendance automation (Python, Django)
- **Real-Time Chat Application** – Multi-device chat app (HTML, CSS, JS, Azure, PHP)
